EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in an interview with Mr. Mike Neustel on 4/3/06.

The application has been amended as follows:

IN THE CLAIMS

18. (Previously presented) A sleeping bag system, comprising:

a sleeping bag;

a ground cloth attached to said sleeping bag;

a canopy attached to said ground cloth, wherein said canopy includes a pair of side panels, a top panel and an end panel;

a first support pole and a second support pole attached to said canopy for supporting said canopy about said sleeping bag, wherein said plurality of support poles are each comprised of an inverted U-shaped structure, wherein said first support pole is adjacent said end panel, wherein said second support pole is centrally positioned within said canopy, and wherein said first support pole is substantially taller than said second support pole;

at least one mid-point support pole sleeve attached to an inner surface of said canopy for receiving said second support pole;

a mesh side window positioned within one of said pair of side panels;

a two-way storage compartment positioned within said end panel;

a storage component attached to an end of said canopy opposite of said end panel; and

a plurality of storage ties to secure said sleeping bag, said ground cloth and said canopy in a rolled-up position.

2. The following is an examiner's statement of reasons for allowance: The prior art of record fails to disclose or fairly suggest a sleeping bag system with a sleeping bag ground cloth, a canopy having a pair of side panels, a top panel and an end panel, these panels being interconnected to the ground cloth with a plurality of fasteners, and a two-way storage compartment being attached to the end panel. The closest prior art, Ranken (US Patent No. 2,259,267), does not include a two-way storage compartment as required by the claims and there is no motivation absent the applicant's own disclosure to modify the Ranken reference in the manner required by the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
